

REMARKS

Claims 1-7 were pending. By this Amendment, claims 1 and 4 are amended to correct minor informalities. No new matter has been added. Reconsideration and allowance of pending claims 1-7 are respectfully solicited in view of the following remarks.

Claim 1 was objected to because of the grammatical informality in the recitation "a controller *for* control the multiplexer." As suggested by the Examiner, Applicant has amended this claim to recite "a controller to control the multiplexer."

Claims 1-7 were rejected under 35 U.S.C. § 112, ¶ 2, as being indefinite with respect to whether claims 1 and 4 were in Jepson format. As suggested by the Examiner, Applicant has amended claims 1 and 4 to explicitly place them in Jepson format. Applicant submits that amended claims 1 and 4, as well as their respective dependent claims, are definite and respectfully requests the withdrawal of the indefiniteness rejection.

Claims 1-7 were provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 of copending Application No. 09/874,377. Applicant traverses this rejection via the attached terminal disclaimer pursuant to 37 CFR 1.321(c).

Applicant submits that pending claims 1-7 are now in condition for allowance, a notice of which is earnestly solicited.
